PROJECTS

ROBUST E-COMMERCE PLATFORM

Ongoing

Working on creating a Robust E-Commerce Platform.

This platform is a fully fledged e-commerce platform like Flipkart and Amazon.

I'm using HTML, CSS, JS, PHP and it's framework Laravel along with MySQL as database to build this project.

TO-DO LIST

This is To-Do list app where you can frame out your to-do list on daily basis.

This to-do list has been made using html, css, php and mySQL ..

PASSWORD GENERATOR

Created a password generator using HTML5, CSS and JavaScript. This password generator generates a password of the length the user defines also includes the alphabets, numbers and the characters the user defines.

WEATHER APP

This weather app has been created using JavaScript and NODE. It has been done by fetching an weather API .

DRUM KIT

This drum kit website is an implication of the JavScript event handler. In this drum kit the drum kits are assigned alphabets and if you press them then the sound of that particular drum comes out.
